## **We build the future.**

The future doesn't just happen; it has to be built, day by day. For Magni, the future has meant challenges, enterprise and innovation since 2013. This vision, embedded in our brand's DNA, is expressed in a constant commitment to the research and development of new solutions and new technologies. These are the values that guided the creation of our new plant, a fundamental production centre where know-how and evolution converge, to keep looking to the future and reaching higher and higher. Because every day is an opportunity to write our future.

# RTH

**Precision, raised to the highest power.**

Years of research and experience meet in the RTH range, to produce rotating telescopic handlers that surpass anything seen before. Peerless machines, able to adapt to any worksite and always operate in complete safety. When precision is a constant, no challenge is too complex.
