

A close-up photograph of a red telescopic handler's mast and bucket mechanism. The bucket is on the left, and the mast extends to the right. The background is a solid red color.

HTH FULL LINER

We build the future.

The future doesn't just happen; it has to be built, day by day. For Magni, the future has meant challenges, enterprise and innovation since 2013. This vision, embedded in our brand's DNA, is expressed in a constant commitment to the research and development of new solutions and new technologies. These are the values that guided the creation of our new plant, a fundamental production centre where know-how and evolution converge, to keep looking to the future and reaching higher and higher. Because every day is an opportunity to write our future.
